4 Year Coverage - €139

## Safe Environments

We understand that safety and security are one of the most important considerations for any school. The same goes for technology within the classroom. You need a solution that gives you control over the security and restrictions being placed on the devices, and also the peace of mind that inappropriate material or apps are not making their way into your environment.

# Safe Environments

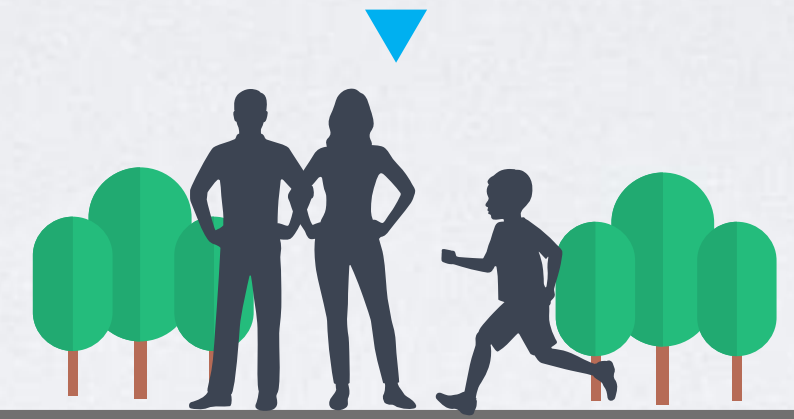

# Important Milestones

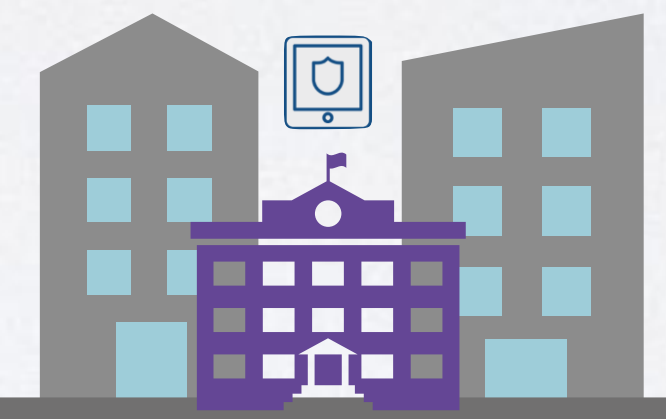

**Decide on any options**  
There may be options on your store to decide upon
